

## **St. Margaret of Scotland Parent Teacher Group Mission Statement**

The PTG is an organization made up of parents and a faculty representative who work together to foster parent involvement in the school community. The PTG provides structure where its parents can have a voice in support of their school.

The philosophy of the PTG is to encourage communication among parents, teachers and administrators for the enrichment of our children's educational experience and to promote a strong Christian community.

Through volunteering, fund raising endeavors and event planning, the PTG supports the educational, physical, cultural and social development of each child while financially assisting in the development of the school community. We organize and run several events throughout the year. The goal of our fund raisers is to raise money to help fund the events, provide buses for student field trips, provide the funds for student activities, capital improvements for the school and special programs.
